Partner Spotlight

NEW MicroK12 can help you upgrade your phone system to the cloud!

MicroK12 has partnered with GoTo, the leader in cloud communications for K-12 education. GoTo is uniquely positioned to help education customers modernize and centralize communications and IT support so they can effortlessly elevate their faculty and students experiences. Premise-based phone systems are being phased out in favor of versatile, flexible and cost-effective cloud-based phone systems (UCaaS). If you are looking to upgrade your technology, or would like more information on the advantages GoTo offers, please contact your MicroK12 representative today.
