## Lenovo Solutions for K-12

Enhancing the future of education with cutting-edge technologies.

#### **Transform with purpose**

### Inspiring learning with continuous innovation

From the classroom to the front room, bedroom or anywhere else learning takes place, Lenovo equips students with the latest easy-to-use, forward-thinking tech.

### **Inspiring the bright minds of the future**

Lenovo Education gives you a safe, accessible and collaborative experience for K-12 students, no matter where they are learning. Giving educators new opportunities to inspire curiosity, and helping administrators benefit from costeffective and time-saving innovation.

Lenovo is in it for the long term. We're here to solve your challenges today and help you shape the future of education tomorrow and beyond.

Read on to see how we're helping institutions to thrive and students to realize their truest potential.

#### **Transform with purpose**

### Al in K-12: from novel innovation to widespread integration

**Nearly 60% of school leaders** have already adopted AI. But **only 18%** said their school or district offered any guidance on AI use.

Responsible AI is essential to ensure that technology enhances K-12 learning, while safeguarding student privacy and ethical standards.

Lenovo devices are built with secure, transparent, easy-to-manage AI tools and features, to help educators leverage AI responsibly. We empower teachers to enhance instruction and classroom management, and ensure that AI is used ethically for the benefit of all learners.

#### Lenovo believes in responsible Al implementation through:

Diversity & inclusion

Privacy & security

Accountability & reliability

Sustainability & social impact

Explainability

#### **Pocket to cloud solutions**

# The K-12 classroom of tomorrow

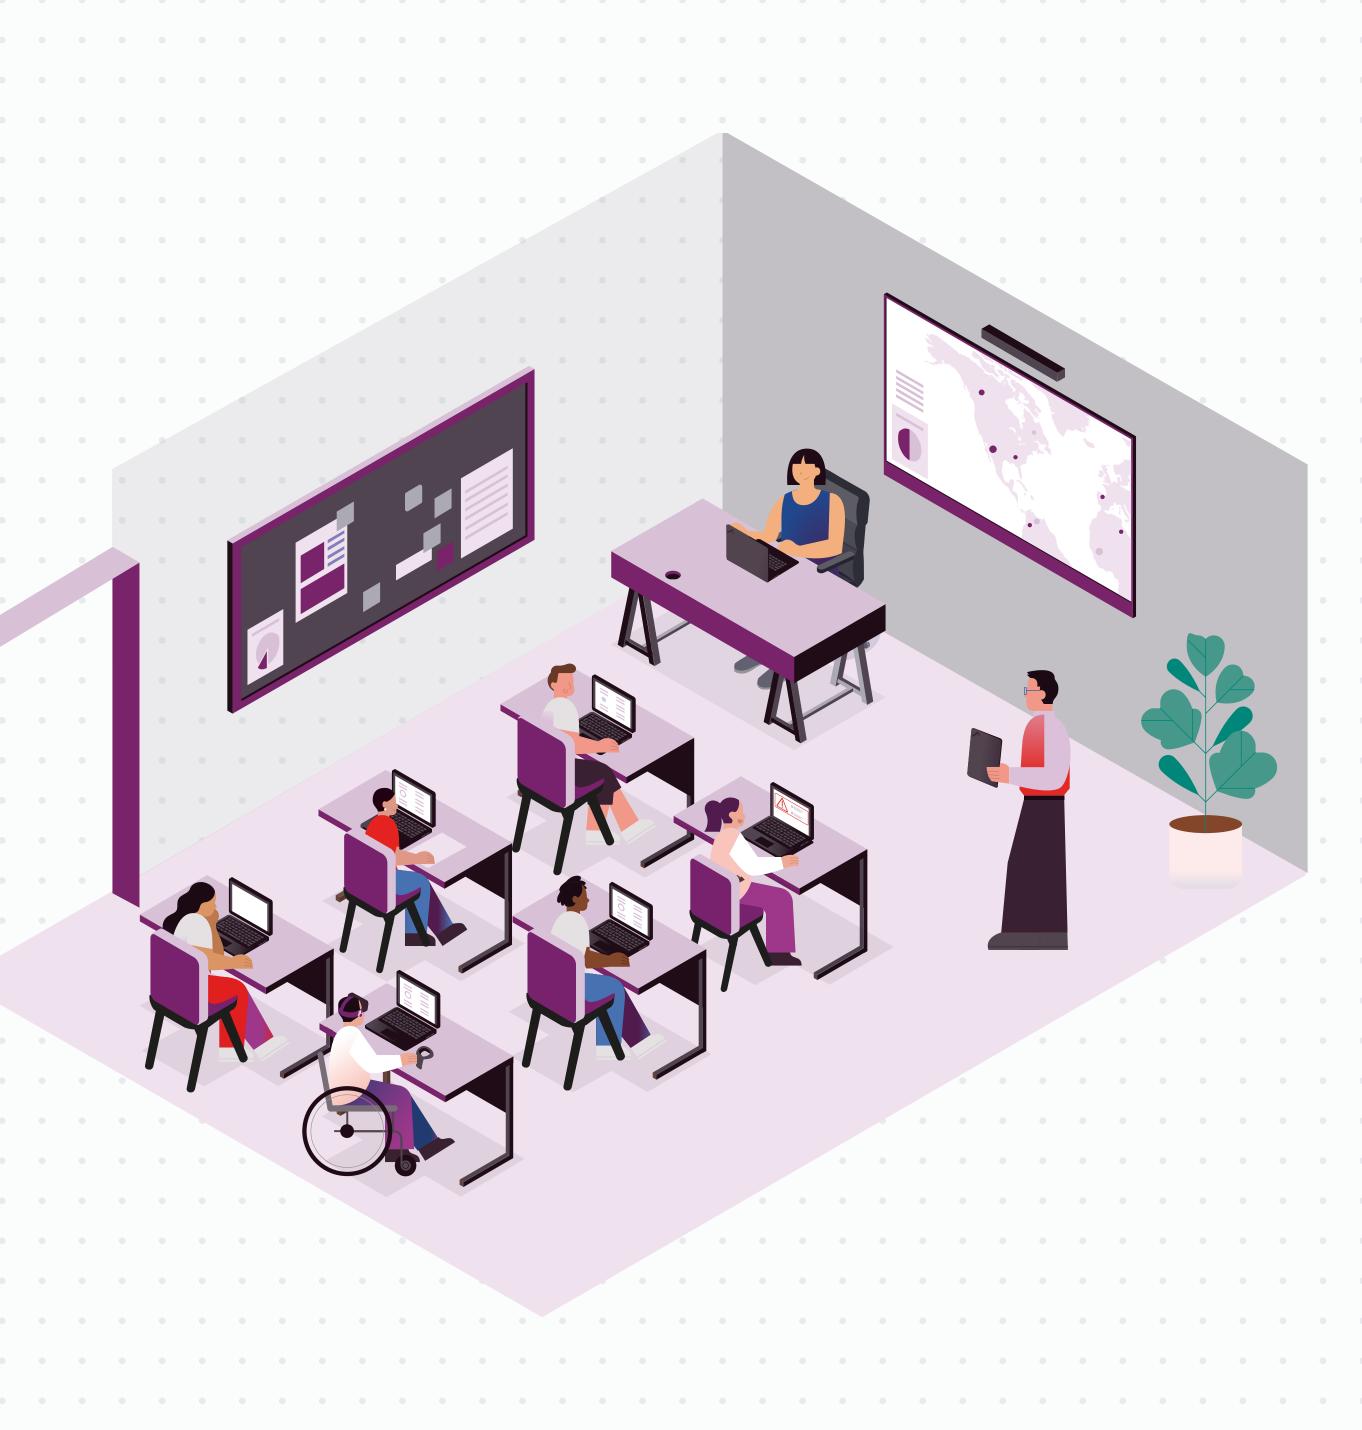

Use our interactive tool to see how Lenovo turns the K-12 classroom into a fully immersive learning experience. Explore the many ways we can help you enhance core education with services and solutions designed to meet the needs of students and educators – to take both beyond previous possibilities.

**Trusted partnership** 

1

### High standards, diverse partners

Lenovo works with key industry partners to develop potential in every learning environment.

### intel

Lenovo supports the Intel® Skills for Innovation Initiative which helps schools integrate computational and design thinking into their teaching.

Windows 11 uses the latest advances in user-centred design to create a more intuitive, more productive interface that leaves students and teachers free to focus on education.

#### Google for Education

We have developed a suite of Lenovo Chromebooks fit for a wide range of users and needs, in the classroom and beyond.

**Trusted partnership** 

### Partnering on Al to elevate teaching and learning

Equipping today's K-12 students for tomorrow's opportunities requires technology that gives them a breakthrough edge in the global market.

Lenovo's AI Innovator Program includes 50+ industry-leading software partners, giving higher education institutions access to enterprise-level AI.

### Towards quality education for all, with Bridge Al

Lenovo works in collaboration with Bridge AI to drive a transformative shift in the way special education is delivered and experienced.

By harnessing the power of AI technology, organizations are not only raising the bar for educational standards but also fostering greater inclusivity and accessibility in learning environments worldwide.

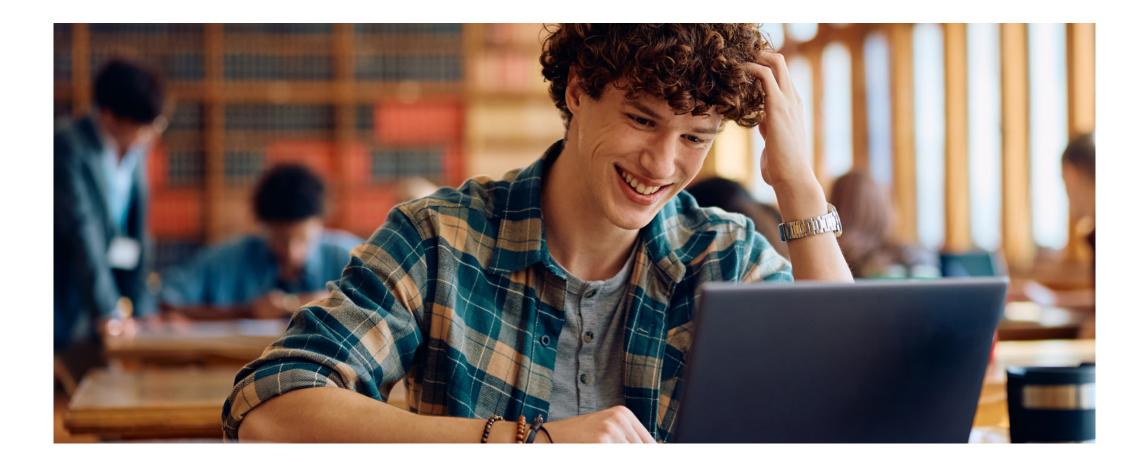

#### **Innovation at scale**

### Smarter learning ahead

Supporting K-12 schools, teachers and students with powerful, innovative devices is just one part of the story. Lenovo also provides end-to-end management and support services to help you unlock even more value from your technology investments.

#### Why Lenovo?

We're the largest global provider of PCs in the educational sector, with over 20 years in ed-tech. Our deep understanding, expertise and time-tested use cases is the strongest foundation for your solutions.

#### **Spotlight on security**

Learning should take place in a secure environment for students and teachers. ThinkShield is our comprehensive portfolio of end-to-end security tools, which keeps hardware, software, services, and people protected across devices and applications.

#### **Threat-detection and prevention at La Jolla County Day School**

La Jolla wanted to make sure every pupil and teacher could learn and work in a safe, secure environment.

By installing Kognition's AI threat-detection system on the Lenovo ThinkEdge platform, integrated with their own camera system, they managed total visibility of their site and were able to boost incident response time by 83%.

#### **Innovation at scale**

### TruScale DaaS with software for education

TruScale Device-as-a-Service is a fully managed subscriptionbased model offering access to workstations, laptops, tablets, phones, and other hardware, plus software, and trusted services with a flexible payment structure.

Create immersive learning with Veative's robust library of interactive, curriculum-aligned AR/ VR modules for STEM, ELL, and virtual tours.

Make remote management easier and get new Windows 11 devices ready for use in minutes with Lenovo zero-touch deployment.

Maintain a secure technology environment with endpoint protection and management solutions through Microsoft 365 for Education with Lenovo.

Enjoy teacher-guided social learning experiences with Exploros, a deviceenabled learning platform to seamlessly orchestrate instruction by providing highquality content, instructional strategies, and powerful analytics.

 $\bigcirc$ 

Maximize efficiency and maintain device health with insights from the new Lenovo Device Intelligence monitoring solution.

### Transforming the future of education starts with the right technology

#### Intelligent Transformation

From data center and infrastructure modernization to Al-readiness and Al-PCs, Lenovo's expert IT teams have intelligent transformation covered, so you can focus on education.

#### Sustainability

As a trusted partner around the globe, we're continuously working towards more sustainable, intelligent operations, including using recycled packaging for new devices.

#### Security

Every Lenovo device is designed with security in mind from development through the supply chain and the full lifecycle of every device.

#### **Social Impact**

Lenovo supports a range of organizations and movements which promote diversity and STEM globally, including NAF, Educando, Camara Education, Solve Education!
