Partner Spotlight

ManagedMethods is the only company providing K-12 specific cybersecurity and safety for Google Workspace, Microsoft 365, and online browsing. Our products make cybersecurity and safety easy and affordable for IT teams working to keep their students, staff, and communities safe. Gain the visibility and control you need to monitor, alert, and respond when time is of the essence—no proxy, no agent, and no special training needed. District tech teams love our products' reliability, ease of use, and lightweight construction which has minimal impact on the end-user experience.
